PROFESSIONAL EXPERIENCE

Frontend Developer | SOFTNOVAN | Yaounde, Cameroon • Remote   **May 2022 - Present**

- Led the frontend development of a custom CRM web application using React and TypeScript, resulting in a 40% increase in client team productivity reported in post-launch feedback.
- Modernized the user interface of a legacy business management system by rebuilding the frontend with React.js, enhancing usability and reducing load times by 30%.
- Collaborated with a 6-person agile team to implement responsive, pixel-perfect UIs from designer mockups for 3+ concurrent client projects.
- Integrated frontend applications with REST APIs and implemented state management using Zustand, Redux toolkit, creating dynamic dashboards for data visualization.

Junior Frontend Developer | WEB4CLOUD | Paris, France • Remote   **Fev 2020 - Dec 2022**

- Assisted in building responsive user interfaces for client web applications using React and CSS, contributing to the company's custom software development services.
- Implemented reusable UI components from Figma designs for a business dashboard feature, ensuring pixel-perfect alignment.
- Participated in debugging and fixing frontend issues for ongoing projects, improving page load times by 15% for one client application.
- Collaborated with a senior developer to integrate a new contact form with a backend API, enabling data submission for a client project.
- Engaged in weekly code reviews and team meetings, adopting best practices in modern frontend development.
